Report on Job Fair

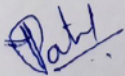

A job fair is an event in which employers, recruiters, and colleges provide an opportunity to potential employees. In colleges, job fairs are commonly used for entry-level job recruitment. Job seekers use this opportunity to stand out from other applicants and get an overview of what it is like to work for a company or a sector that seems interesting to the applicant.

Career guidance and placement cell organized a job fair in association with Maharashtra State Innovation Society (MSInS), Government of Maharashtra on 14 October 2022.

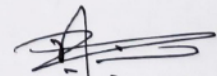

20 Companies were invited to the fair. This job fair was for all graduates and postgraduates.

472 students registered for the event and around 200 candidates turned up for this job fair, of which 5 were selected to the various companies that interviewed the candidates.

This event was a huge success for the Career guidance and placement cell which took a great initiative in bridging the gap between the employees and employers. Moreover, this will now be carried for the years to come.
